said that in a subpoena

delivered to the White House Wednesday, Starr sought documents showing when Lewinsky entered and departed the White House. White House spokesman Mike

McCurry said aides were methodically searching through documents in an effort to comply with the subpoena, a process that would take some time.

'There's not a room in the White House that's called 'the Truth Room' where you can go unlock the door and it's all sitting there," McCurry said. "Everybody is working hard to answer these questions.'

Officials told The Associated Press that there were records of several visits by Lewinsky to the Oval Office after she had left her White House job for a position at the Pentagon last year. Most times she checked in to see Clinton's personal secretary, Betty Currie, who was a friend, they said.

Individuals also said that in his sworn deposition on the Jones case last weekend, Clinton denied a sexual relationship with the woman but acknowledged providing her some gifts. Published reports said the gifts included a dress.

Officials also said longtime presidential confidant Vernon Jordan arranged a job offer for the intern and U.N. Ambassador Bill Richardson, at the request of the White House, offered Lewinsky a job around the time she was being asked to testify in the Jones case.

Cosmetic company Revlon disclosed that Jordan, who is a member of the company's board, referred Lewinsky for a public affairs job at a Revlon affiliate. She was interviewed over the past two months and offered a job. That offer was rescinded Wednesday.

Officials confirmed that Richardson interviewed Lewinsky at his office at the Watergate complex in

### Flowers claims Clinton testimony 'hard to believe'

Associated Press

WASHINGTON — Amid reports that President Clinton has acknowledged, for the first time, an affair with Gennifer Flowers during the 1970s, a White House official said Thursday that Clinton's latest account is "not at odds" with his earlier denials.

Flowers said "it's hard to believe" Clinton now reportedly admits what he had long denied.

The Washington Post said Thursday the president's reversal came during Clinton's six-hour, closed-door deposition Saturday in the Paula Jones sexual-harassment lawsuit. The Post quoted unidentified sources familiar with his testi-

White House Press Secretary Mike McCurry confirmed Thursday that Jones' lawyers questioned Clinton under oath about his relationship with Flowers. During the 1992 presidential campaign, Clinton denied Flowers' statements that they had a 12-year affair.

"The president knows that he told the truth in 1992 when he was asked about that relationship, and he knows that he testified truthfully on Saturday, and he knows his answers are not at odds," McCurry said Thursday.

Flowers, who lives in Dallas, called The Associated Press early Thursday after hearing the report from a friend. "It's hard to believe after all this

time," she said. She declined further comment. Flowers commented on allega-

tions that Clinton had an affair with former White House intern Monica Lewinsky, "You think he'd learn."

# Unabomber confesses, avoids death penalty

Associated Press

SACRAMENTO, Calif. Theodore Kaczynski pleaded guilty to being the Unabomber Thursday in return for a sentence of life in prison without parole.

Kaczynski sat unflinching as a prosecutor recited the horror of his 18year reign of terror — bombs that killed three men and injured 29, including one who had his arm blown

In a calm voice, Kaczynski confirmed he had written in his journal, "I would do it all over again."

The 55-year-old mathematics professor turned woodland hermit entered the last-minute plea on the day a jury was to be sworn in and opening statements were to begin.

The agreement avoids the possibility of execution. He will be formally sentenced on May 15.

Afterward, David Kaczynski who had alerted the FBI that his brother could be the Unabomber appeared visibly relieved.

"We feel it is the appropriate, just and civilized resolution to this tragedy, in light of Ted's diagnosed mental illness," he said. David sat in the front row of the

courtroom, tears streaming down his face, as he heard how a man's heart was pierced by the shrapnel from one of his brother's bombs. Their 80-year-old mother, Wanda,

maintained her composure, but handed David a tissue to wipe his tears. Outside court, Connie Murray

issued a statement supporting the plea agreement. "He will never, ever kill again," she

Her husband was Kaczynski's last bombing victim; Timber lobbyist Gilbert Murray was killed in his Sacramento office in April 1995.

Kaczynski pleaded guilty to 13 federal charges covering five bombings, including two deaths in the Sacramento area and one in New Jersey. The plea agreement resolves

"I would do it all over again."

> — Journal entry of Theodore Kaczynski

all federal charges against Kaczynski, who also admitted his role in Unabomber attacks in which he had not been charged.

A deal had been discussed for months, but was repeatedly turned down by the government because Kaczynski insisted on certain condi-

A senior federal official in Washington said that a report submitted only days ago by a federal Bureau of Prisons psychiatrist was the decisive factor in Kaczynski's decision to accept a deal.

Dr. Sally Johnson concluded that Kaczynski was competent to stand trial but suffered from paranoid schizophrenia.

Kaczynski was against being portrayed in court as a madman. not want to be perceived as trying to execute a mentally ill man.

As Kaczynski entered his plea, new were revealed. In a journal entry discussing the first fatal attack — that of Sacramento computer store owner Hugh Scrutton in 1985 — Kaczynski wrote, "Excellent. A humane way of eliminating somebody. He probably didn't feel a thing."

Noting that a \$25,000 reward had been placed on his head after that attack, Kaczynski called it "flatter-

The journals also showed that he proudly followed newspaper accounts

Kaczynski seemed almost lighthearted at the start of the plea pro-

ceeding. When U.S. District Judge Garland Burrell Jr. asked him if he had a vocation, he said, "That's an open question right now. I think jail is my vocation.'

When asked to tell what he did previously, he said, "I was once an assistant professor of mathematics. Since then, I have lived in the woods of

Montana doing skilled crafts.' The agreement came shortly after Burrell ruled that Kaczynski could not fire his court-appointed lawyers and -represent himself.

Burrell said that to abandon the mental illness defense that Kaczynski's lawyers had advocated would turn the courts into "a suicide forum for a criminal defendant.'

The Kaczynski family has long argued that Ted was a paranoid schizophrenic. But he had adamantly resisted examination by government psychiatrists until last week.

He reversed course in a bid to prove he was competent to defend himself and dump his lawyers.

Kaczynski was arrested in April 1996 outside Lincoln, Mont., where he lived in a cabin crammed with journals, diaries and a completed

Described as a boy genius sent to Harvard at the age of 16, Kaczynski Prosecutors, meanwhile, clearly did succeeded at math but failed to socialize with his classmates or function within society.

He quit a tenure-track position as a = details of his life as a wanted terrorist math professor at the University of California at Berkeley in 1969 to build his cabin, where he lived without running water or electricity for more than 20 years.

At one point, the Unabomber was able to force newspapers to print his 35,000-word manifesto, which denounced the rise of technology and destruction of the environment.

Similarities between the manifesto and letters Kaczynski had sent to his family caught David Kaczynski's attention and triggered the decision to turn his brother in to authorities.

# Injecting drugs increases HIV risk

**By MARCUS BURTON** 

An increase in injection drug/use throughout Utah is leading to higher

risks of HIV. "There is a huge explosion of methamphetamine in Utah," said Ben Barr of the Salt Lake County Health Department. "We have a four-fold increase in the number of injection drugs used.'

Injection drugs are becoming more popular every year, he said. Shooting up seems to be a new fad. Homosexuality and the use of dirty syringe needles, usually to inject ille-

gal drugs, are leading causes of HIV-AIDS. Barr, who has been studying the relation of injection drugs and HIV, said he is frustrated with the lack of help an injection drug user can

He said he feels that more treat-

seeks help must wait three to four months just to get into a drug-help

faster and easier," Barr said. In Utah County, drug users can contact the Foothill Treatment Center in Provo for help. A drug user may be able to receive aid in as fast as one day if they do not need resi-

dence assistance. For residence assistance, the wait could be between three to four

Although HIV statistics for Utah County are considerably lower, Clark Swenson, of the Utah County Health Department, said anyone who has ever put themselves at risk or who associates intimately with a high-risk individual should be tested

In many cases, a drug user who which is a small number compared to the 5,000 to 6,000 tests performed in Salt Lake County. Salt Lake County averages about

"We need to make drug treatment 115 new cases a year, while the rest of Utah reports between 60 to 70 "Salt Lake County has 75 to 80

> percent of all AIDS cases," Barr Individuals at high risk include anyone who has used injection drugs

or engaged in homosexual or nonmonogamous heterosexual activities. No evidence of a link exists between injection drug users and homosexuals, just that both carry a high risk of becoming infected with HIV.

HIV cases in Utah County is slowly increasing each year. This number only reflects the cases

Swenson said the number of new

ment centers need to be opened to Last year, Utah County performed diagnosed in Utah County. The numcater to drug users who want help. approximately 600 HIV-AIDS tests, ber may be higher, but more than 85 percent of Utah cases are treated at the University of Utah Medical

Due to new treatment developments, AIDS patients are living longer. Thus, the total number of AIDS victims in Utah is increasing by approximately 200 each year.

"This year, we had a 50 percent reduction in the number of deaths." said George Usher of the State

Health Department. Barr believes now that we can help victims live longer, we should also be able to dramatically decrease the number of individuals being infect-

"The cumulative case load is increasing like a staircase," he said.

Several cities outside of Utah have adopted Harm Reduction Programs. These programs help drug users decrease the risks of HIV.

### Chronic efforts control epidemic

NAIROBI, Kenya — A cholera epidemic that killed nearly 3,000 people has peaked in East Africa, but efforts to control the deadly disease must continue to prevent a new surge, the World Health Organization said Thursday.

"Everything indicates that we are going out of the peak of the outbreak," said Dr. Maria Neira, chief of the WHO Global Task Force on Cholera Control. But if control measures including treatment and sanitation slack off, "tomorrow we could have a new peak,"

Cholera outbreaks are common this time of the year, when seasonal rains wash human waste into drinking water, but this year's outbreak was worsened by the heaviest rains in three decades. The bacteria enters the body through the mouth, usually in contaminated water or foods. It causes severe diarrhea, then vomiting. If untreated, it can kill through dehydration.

### Mummy proof for early embalming

NEW YORK — An Egyptian mummy from about 2150 B.C. shows the earliest known evidence of embalming, extending its known use by 1,000 years, German researchers said Thursday.

The mummy is the skeleton of Idu II, secretary general of the pine wood trade office during the Old Kingdom of Egypt. It was found in 1914.

The researchers examined fragments of the mummy's clavicle and found pine wood compounds and sodium, indicating a treatment that preserved the bone so well that a natural enzyme was still present in active form, the researchers said in the journal Nature.

Apparently, flesh was removed at least in part from the official's body before the embalming was done, they wrote.

### Man says he is 140, oldest in world

KUALA LUMPUR, Malaysia — Supporters of a Malaysian man who claims to be 140 years old are trying to get him recognized in the Guinness Book of Records as the world's oldest living person.

If confirmed, Omar Abbas would have a more than two-decade advantage over Canadian Marie-Louise Febronie Meilleur, 117, the titleholder since France's 122-year-old grande dame, Jeanne Louise Calment, died last August. Other people claim to be older than Meilleur but lack the documents

Guinness requires to prove their claims, notably a birth certificate. Although Abbas does not have a birth certificate, his birth date has been confirmed by the State Registration Department as Sept. 26, 1857, the New Straits

Times reported Thursday. The department's head was quoted as saying only Malaysians born after June 1926 were issued birth certificates. Those born earlier were given ration cards recording their birth dates.

### 3 Matisse paintings marred in Rome

ROME — Three Matisse paintings — including one on loan from Washington's National Galley and another from Russia's Hermitage Museum — were found damaged Thursday at a Rome exhibit.

Officials temporarily closed the Capitoline Museum, where the paintings have been on display since September, to make an inventory and to see if any

other works of the French painter were damaged. The three damaged paintings were identified as the National Gallery's "Pianist and Checker Players," "The Japanese Woman," from a private collec-

tion and "Zorah Standing," from the Hermitage. "Pianist," painted in 1924, shows a woman dressed in yellow playing a piano and checker players at a table. RAI TV showed the painting with a hole in the

area of a dotted tablecloth on a table where the game is being played. Nancy Starr, a spokeswoman for the National Gallery, called it "very minor damage" and said a gallery official was flying to Rome to better assess the

"The Japanese," painted in 1901, had been punctured, apparently with a pencil, on the area of the costume and the foreground. The full-length figure in "Zorah," from 1912, had a streak, apparently from a pencil.

# Provo High School discusses relocating

By AUTUMN C. FOSTER Universe Staff Writer

Provo School Board members listened to and discussed parents' concerns with the facilities and the traffic at Provo High School Tuesday night at their January meeting.

Patti Harrington, a former principal of Provo High School, presented the board with a proposal for conducting a feasibility study for remodeling or relocating the aging school.

She described the inadequacy of several of the facilities and discussed the negative traffic situation around Provo High.

Harrington said that the auditorium is not large enough to hold the entire student body of nearly 2,000 and the stage facilities do not accommodate fly lines or scenery that raises above the stage.

Another concern is the lunchroom, which accommodates only 300 students. The remaining 1,700 students eat in the halls, the courtyard and on the lawn, in good weather.

Some 500 students leave campus on foot or in cars to eat lunch. This creates a difficulty in enforcing Provo High's closed campus policy and leads to Harrington's second major concern, the traffic situation.

The school is located between University Avenue, Freedom Boulevard and Bulldog Boulevard, all of which have high levels of traffic.

The heavy traffic creates concerns with both students who drive and who walk.

Harrington proposed that a study be done to determine the feasibility o relocating the school.

The board agreed to conduct the

Also on the agenda were a proposal of boundaries for the new Amelia Earhart Elementary School, a district policy on smoking on campus, a presentation by the chairman of the Utah County Republican Party and a discussion about the School Board at Westridge Elementary.

The boundaries for the new Amelia Earhart Elementary School were proposed and agreed on. The school will accommodate students who now attend Sunset View and Westridge elementaries.

The board members agreed to prohibit all smoking on Provo School District campuses as part of the district's drug-free policy. This rule includes teachers.

Rod Fudge, chair of the Utah County Republican Party, requested the use of Provo's schools free of charge for the Republican and Democratic bi-annual caucuses.

Fudge explained that Alpine and Nebo School districts allow the parties to use their facilities free of charge and asked that Provo do the

Brent Israelson addressed the board on the importance of parent involvement and discussed concerns with the exclusion of parent input at Westridge

School Board meetings. The Provo School Board will hold

its next meeting Feb. 10.

### Thomas last American to live on Mir

Associated Press

CAPE CANAVERAL, Fla. — Space shuttle Endeavour thundered into the night Thursday on a flight to take one last American to live aboard the Russian space station Mir.

Thick, dark clouds that had hovered over the launch site throughout the afternoon were gone by the time Endeavour and its crew of seven rocketed away at 9:48 p.m. EST, right on

Andrew Thomas, Mir's next astronaut, was the main attraction.

"Good luck, Andy!" well-wishers shouted when he headed to the pad. Among those on hand for the launch

was newly renamed astronaut John Glenn, preparing for his own shuttle flight this fall.

Thomas, a 46-year-old Australianborn engineer, will replace David Wolf aboard the space station. Endeavour is due at Mir on Saturday.

"We begin '98 sending our last astronaut for his stay on Mir," a launch controller said moments before liftoff. "We're going to howl for the Wolfman." At the moment of Endeavour's

launch, Mir was soaring over the North Atlantic - 4,500 miles away on its 68,136th swing around the world. Wolf and his two Russian crewmates were said to be asleep.

### Dinosaur Bones stolen from McMmo

Associated Press

MOSCOW — Employees have stolen \$1 million worth of rare dinosaur bones and other fossils from Moscow's Paleontological Institute, a

newspaper said Wednesday. The thefts began shortly after the 1991 collapse of the Soviet Union, when 240-million-year-old amphibian skulls disappeared from the institute, the daily Vechernyaya Moskva said.

It quoted Interpol as saying the skulls alone were worth \$500,000.

Also missing is a pair of mammoth tusks weighing 220 pounds and considered to be the largest in the world, the newspaper said.

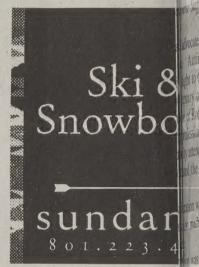

Some of the pieces later were seized from a German dealer who claimed he had permission to take them out of Russia, it said.

Curators at the Paleontological Institute acknowledged that some

exhibits were missing denied the paper's cla

Life Rally'

Marking the 25th anniversary of the Roe v. Wade and Doe v. Bolton decisions that legalized abortion, the Utah Pro-Life Coalition sponsored a Celebrate Life Rally at the State

"We are not here to celebrate the Roe v. Wade decision but rather to celebrate life," said Gayle Ruzicka, moderator of the event and member of the Utah Eagle Forum.

Ruzicka said she believes no prochoice rallies were being held at the State Capitol because they know they have no support there.

Both Sen. Orrin Hatch and Robert Bennett and Congressmen Merrill Cook, Jim Hansen and Chris Cannon support anti-abortion legislation and worked towards outlawing partialbirth abortions, a measure later vetoed by President Clinton.

Congressman Cook said partialbirth abortions were "closer to infanticide than abortion.'

More than 35 million abortions have occurred since the decision of Roe v.

Both Cook and Cannon agree that President Clinton is the sole remain-

tial-birth abortions. "We would like to change President The Utah Pro-Choice Coalition Clinton from a road block into a road

ing stumbling block in outlawing par-

Addressing the crowd, State Sen Craig Taylor said the country's problems are not monetary but moral.

Kelly Forbes, President of the Utah Adoption Council, told the story of her unplanned pregnancy, her decision to place the baby up for adoption and her reunion with her son 17 years

"That point of view, I firmly believe,

has been discredited over the past two

years," Shattuck said at a conference

organized in part by the Center for

Democracy, which is funded by the

United States and Austria.

accord.

At 18, unmarried Forbes became pregnant and sought advice from Planned Parenthood. Over the phone a counselor asked her if she would consider having an abortion. Forbes said

Forbes placed the child up for adoption and never held or saw the baby until a chance encounter with the baby's adoptive mother 17 years later.

While meeting with a counselor, Forbes related the details of giving up her baby for adoption. The counselor soon realized she had been raising Forbes' baby.

Jake Bradley, the baby that Forbes placed for adoption also spoke to the

He said he was grateful for Forbes' sacrifice and said his parents have always told him that there was some-

one else thinking about him, too.

Forbes' story has gained media attention and has appeared in the Ladies Home Journal and Chicken Soup for the Women's Soul. Forbes and the Bradleys also made an appearance on the Regis and Kathy Lee Show.

"Abortion is a life long tragedy with so many 'What If' questions," Forbes said. "Adoption is a life long gift and a wonderful way to create a family,"

Elder Hartman Rector Jr., general authority emeritus of The Church of Jesus Christ of Latter-day Saints said it is an "affront to the dignity of the God of all creation to tell him he cannot send his children here.'

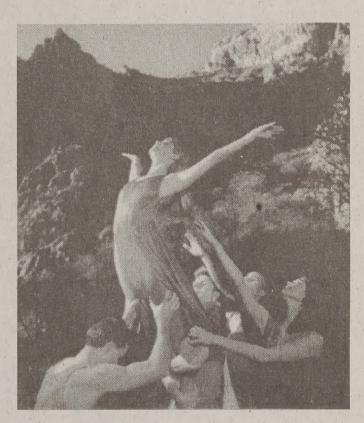

Other Pro-Life rallies were being held across the country Thursday including the National March For Life and the National Prayer Vigil.

# 2 N.J. newspapers stir sex law controversy

Associated Press

NEWARK, N.J. -- Under Megan's Law, authorities may go door-todoor to tell residents about sex offenders moving into their neigh-

Two newspapers have printed stories quoting information from a "sex offender release notice," angering authorities who meant it only for neighbors' eyes and alarming those vigilante action.

The Home News Tribune of East Brunswick ran a front-page story Wednesday, including two mug shots from the notice naming Ronald Terpak.

The flier was distributed to a small area that straddles Union and Middlesex counties, with a warning that it "may not be released beyond your immediate household, given to the press or posted anywhere.'

The article, but not the pictures, was also published in the Asbury Park Press, a sister paper, and posted on the newspapers' Internet sites.

"We heard the fliers were going out and thought we'd be remiss if we didn't do it," said Teresa Klink, managing editor of the Home News Tribune.

Klink said the newspaper considered the flier "public information." When asked whether she believed it

editor said. "I don't know whether it will or not. We decided to be fair and not publish the man's address."

Thursday, the paper reported that when public documents on Terpak's criminal record were sought this may go door-to-door to notify resiweek, a Home News Tribune reporter was told by authorities that they couldn't be released because of

Several officials Thursday denied who fear such notices can lead to that Megan's Law closes such records. Any indictment and conviction can be obtained from the courts, said Richard P. Rodbart, deputy first assistant Union County prosecutor.

> Home News Tribune editor Richard A. Hughes said the newspaper expects to get the records Thursday.

W. Raymond Ollwerther, executive director of the Asbury Park Press, defended the decision to publish the information.

Terpak has been free since March 1993 after serving three years for attempting to endanger the welfare of a child. He does not have a phone listing and could not be reached Wednesday for comment.

Attorney General Peter Verniero said it was improper for the information to be given to the newspaper. He said prosecutors will investigate a neighboring state, another commuhow the information got out.

raised the risk of vigilantism, the considered contempt of court," Verniero said in a statement. "I also reiterate that any act of vigilantism against a known sex offender will not be tolerated."

Under Megan's Law, authorities dents that sex offenders considered to pose a high risk of committing new crimes have moved nearby. The notification area must be approved by a judge and may be challenged by the offender at a closed judicial

The law was named for Megan Kanka, a 7-year-old who was raped and murdered by a sex offender who had moved into her neighborhood.

When it upheld Megan's Law in 1995, the state Supreme Court wrote "we assume that the media will not knowingly frustrate the explicit legislative goal of confining notification to those likely to encounter the offender."

The state public defender's office, which is pursuing several appeals of Megan's Law, said the newspaper's action is evidence that notification can invade the offender's privacy.

"Typically, these guys are rendered jobless and homeless," said John S. Furlong, who does not represent Terpak. "It will shift our problem to nity, because we refuse to confront a "Improper dissemination may be tough, public mental health issue."

Man's best friend has met opposi-

tion in South Jordan. The city has passed a law banning new ownership of pit-bull terriers and placing restrictions on current owners. The law, which was passed in December, will be effective Feb. 2.

The rationale for banning the pitbull terriers came about after a fiveyear-old girl was attacked in April, according to the South Jordan City Department of Animal Control.

Since the attack, the city has been working on a way to protect its residents so that public and residential places will be safe from the threat of a pit bull.

"Paramount in this issue was the overriding concern for the health, safety and welfare of our citizens," said Pamela Rasmussen of the Department of Animal Control.

At one point, they sang a song of welcome to the "messenger of truth and hope." And in his homily, John Paul got quickly to his message, delivered in Spanish, about "the social situation experienced in this beloved country."

He denounced systems "which, under the guise of freedom and progress, promote or even defend an anti-birth mentality."

Abortion is free of charge and available on demand in Cuba, which has long had one of the world's highest abortion rates.

"Abortion ... is always, in addition to being an abominable crime, a senseless impoverishment of the person and of society itself," the pontiff said. Premarital sex, promiscuity and easy recourse to abortion have "a prowo addresses over less than foundly negative impact on young people" in Cuba.

> In recent years, Cuban officials have accelerated a campaign to discourage abortions. They say the rate — once one abortion for every live birth has been cut in half.

Castro himself, on a visit to Rome to meet the pope in 1996, told reporters, "We do not like abortion. It is not healthy or advisable or desirable."

But Health Minister Carlos Dotres told Granma last week that legal hospital abortions are necessary "so we don't have deaths under poor conditions" at the hands of unqualified

John Paul drew the most enthusiastic reaction from the Santa Clara crowd when he called for restoration of Catholic education in Cuba.

In the early 1960s, newly triumphant revolutionaries shut down the Catholic schools, which in a largely mulatto and black nation catered to the white upper class — most of which had left the country.

The government has certain rights in education, the pope acknowledged, but "this does not give public authority the right to take the place of par-

has already met separately with Netanyahu and Arafat right, who made one trip to East last year and said she t go back just to "tread

ame to Washington saying at asking for the moon."

"I am asking for what was signed at the White House," Arafat said before calling on Clinton. Referring to a temporary agreement he reached with Israel in 1995, Arafat is insisting on a 60 percent pullback of Israeli forces, he told reporters in the White House

Conversely, Netanyahu said getting more territory depends on the Palestinians taking tougher measures against terrorists and the Palestine National Council publicly annulling calls for Israel's destruction.

Netanyahu told reporters in the United States before going back to the Middle East that he had not given the president "any percentages."

But the Israeli newspaper Haaretz said Netanyahu had told Clinton he would withdraw troops from 10 percent of the West Bank, but would forgo other pullbacks he had promised the Palestinians.

According to the Haaretz, Clinton said the Palestinians were willing settle for a 15 percent withdrawal which is half their initial demand.

Netanyahu, in a windup speech Wednesday, said his message to Arafat was: "You haven't done anything, and you ask us to give up additold reporters that the tional territory to be bases for terror-

> The prime minister said 250 Israelis were killed in terrorist attacks since the first interim agreement was signed with Arafat in 1993. This number is up from the number of Israeli deaths of the previous decade.

> And now, he said, TNT is being produced for bombs in each of the West Bank towns Israel surrendered to the Palestine Authority.

> "We'll not ever be pressured into jeopardizing our security," Netanyahu said after meeting with congressional leaders.

Still, Netanyahu said on CNN's stinian need, it's an Arab "Larry King Live" before his departure that he had enjoyed his talks with Clinton and characterized them as open and friendly.

He discussed with Clinton ways to bridge the concerns of both leaders.

"He said let's figure out a way to weave the two: Palestinian compliance and the Israeli redeployment. ... We haven't finished that job." Netanyahu said.

In a PBS interview, Clinton said he had narrowed differences between the prime minister and Arafat enough to look for "some way we can put them together" to work out a settlement.

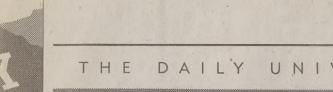

"And I'm very hopeful, because I think it's not good for them to keep on fooling with this and not making progress," Clinton said.

State Department spokesman James P. Rubin said that the president might put some heat on Arafat to try and get a deal developed.

"He needs to understand the linkage between any movement forward by the Israelis and the question of security," Rubin said.

Jan. 3, two individuals drive their vehicle off the the riverbed of the LDS are Studio. When the offil, the individuals were front of their vehicle. stuck in the mud. A tow ummoned to remove the ause neither juvenile had bey to pay the driver of the ne vehicle was impounded. One of the juveniles called his father to pay the bill, but his father refused. The two were sent home on foot. The suspects claimed that they were looking for a hidden road.

In early January, officers responded to a fire alarm in the BYU Bookstore. Upon questioning a nearby individual about the alarm, the officers discovered a warrant was out for the individual's arrest. He was immediately taken to the Utah County Jail.

Thursday around noon, a vehicle drove past a pedestrian walking on South Campus Drive. An occupant in the vehicle shot several paintballs at the pedestrian. None struck the victim, but the vehicle was reported to the police.

DISORDERLY BEHAVIOR

During the BYU vs. Colorado State basketball game, officers responded to a report of a man sitting in the wrong seat. The suspect had alcoholic beverages in his possession, and a friend with him was intoxicated. Both were escorted from the game.

An individual was apprehended for posting anti-LDS literature in the Wilkinson Center. He refused to leave when asked by a custodian and claimed his right to remain silent when approached by the officers. The individual was temporarily banned from campus and escorted from the area.

THEODEN

At approximately 6 p.m. on Jan. 15, 40 pieces of silverware were stolen from a Robison Hall apartment in Heritage Halls. The thief took the rack containing the silverware directly out of the dishwasher.

Between 11:00 a.m. and 1:45 p.m., a theft occurred in the women's locker room of the Cannon Center. After a woman left her bag in the room, she returned to find a note inside her bag saying she could have been a possible victim. Later, she realized she really was a victim when she noticed money and makeup, valued at \$20, were missing.

Last week, a wireless microphone was stolen from 267 RB. The microphone, which is BYU property, is valued at \$1,200.

**VANDALISM** 

An individual returned to the parking lot of the McDonald Health Center to find a large dent in the hood of his car. Upon police investigation, it was discovered that the victim had been banned from campus parking. Now the victim faces an estimated \$500 cost to repair the dent and a \$300 fine for trespassing.

Norman Nemrow, an instructor in the School Of Tanner Building. Nemrow's teaching style Accountancy and Information Systems, teaches includes plenty of enthusiasm and humor to Accounting 200 in a large auditorium in the help students stay awake.

### Accounting professor teaches with charisma

By SHANDA MURRAY Universe Staff Writer

Laughter floats from 151 TNRB, and cries of "Story, Norm, story!" are heard. Is this some kind of party, or ... just an Accounting 200 class?

The class is not taught by a typical accounting instructor. Enter Norman Nemrow, the professor who warns his students not to call him "Dr." because he doesn't have a doctorate. He jokingly urges them to address him as "Master Nemrow." After all,

he does have his master's degree. Students learn the practical value of the language of business with plenty of jokes to smooth the

process. "It didn't matter what was being taught on a particular day," said Mike Jensen, a junior from Elko, Nev., majoring in public relations. "He always made it fun with his funny stories. Even though the subject might have been boring, I still ent ways to overcome and explain

wanted to make it to his class." Jensen said the subject was diffi- said Nemrow. cult for him, but he wanted to learn because Nemrow showed him how to apply the course content to life.

David Fuhriman, a junior from Portland, Ore., majoring in public relations, has similar feelings.

"I liked him because he realized it wasn't the most exciting topic, so he used a lot of practical applications and stories to make it useful for us," Fuhriman said.

After completing a master's degree in accounting at BYU in 1979, Nemrow worked as an accountant at Arthur Andersen & Co. He was also partner and president of a start-up real estate investment company in Orange County, Calif.

His accounting and business background, as well as a professorship at Pepperdine, gave Nemrow the skills to teach accounting.

Nemrow's love of teaching and enthusiasm for the students set him

"I just enjoy the process of finding out where the stumbling blocks of learning are and figuring out differthese so people can understand,"

Sometimes professors think on Nemrow said. "My hope is to have such a high level that they have a spiritual impact — bless students' hard time explaining concepts to lives for the long term ... "

students.

"Maybe that's my advantage — I'm dumb!" said Nemrow in classic

Nemrow's style is appreciated. Undergraduates clamor to get into Nemrow's stuffed classes. They even sit in the aisles of the large auditorium where he teaches.

Despite his huge classes, "he acts like he cares about you and understands what you are going through," said Melanie Bridge, a sophomore from Greensboro, N.C., majoring in public relations.

Nemrow often stresses the privilege of attending BYU.

"The church pays for this university. Why should they take tithing from Bolivia to pay for some rich California kid to go to school?" Nemrow asked.

The church funds the university for a purpose: to train future church leaders both secularly and spiritually, Nemrow said.

"This is a way for me to do something that helps the church,"

### Asian-Americans feel cultural pride

By MARLIESE FILLMORE Universe Staff Writer

BYU students with Asian ethnic backgrounds said they are Americans first and foremost. A panel of five Asian-American students clearly conveyed this message at a symposium

"A big misconception people have is that Americans are whites, but that's not true," said Andrew Han, a junior from Irvine, Calif.

Another panel member, Jonathan Chan, a junior from New York City majoring in international area studies, said, "Americans entail everyone who lives here in the United States."

Chan said at times he feels torn between his Native American upbringing and his Chinese heritage; but, mostly, he feels grateful for the diversity he is exposed to, coupled with a sense of cultural pride.

The panel members said they had all experienced some form of prejudice, more so while attending BYU, with its primarily Caucasian population, than in their racially diverse home

"People judge on a color basis. All Americans have a different ethnic heritage mainly from European origin; but since they look the same, they are accepted as Americans," said Eddia Au, a senior from Los Angeles studying Chinese Literature.

"You don't commonly ask someone if they have a German background; you don't question their loyalty. But we get that all the time," Au said.

Au said she does not agree with the idea people have that Asian-Americans should identify more with the their blood race then with the race of their citizenship.

"I never went through the identity crisis that some do, but I have always wondered what people think when they look at me and my Korean skin. Do they see me as American?" said Angela Ahn, a junior from southern California majoring in public rela-

Janet Chia, a panel member from Toronto who is majoring in education, said she chose not to be "Chinese" growing up. "I didn't really appreciate my background, until I went on my mission to Taiwan and realized I couldn't push my culture off to one side of who I am.'

Chia said that having the gospel of The Church of Jesus Christ of Latterday Saints has taught her that everyone is human. She said that knowing this helps her have forgiveness for people who make her feel isolated.

Thursday night for today's a cappella competition which could take

Fred J. McGuire/Daily Universe Members of Integral, Glen Sawyer, left, a graduate student from Springfield, Va., majoring in computer science and Todd Lassing, a senior from Huntington, Calif., majoring in broadcast, practiced By MEGAN ELISON Universe Staff Writer

Campus a cappella groups Vocal Point and Integral will compete tonight at 8 in the Wilkinson Center Ballroom as part of a regional harmo-

ny sweepstakes. Colorado group, Extreme Measures,

will also participate. The annual competition is the first leg of a national contest. The event typically has about eight participating groups, but lack of college-student singers limited the number of participants to three.

The purpose of the competition, according to the organizer's official website, is "to promote the appreciation and performance of vocal harmony." The event will also focus on "putting on a highly entertaining show" and "providing performers with a positive experience and with tools to help them progress in the performance of vocal music."

By setting the competition at BYU, contest organizers recognized Vocal

A committee of Student Life mem-

bers along with other officials are in

that they would not run the film. They

with "Schindler's List."

Point, which won the regional round in 1997, and Integral as significant a cappella groups. The area is already known for its support of a cappella music, however.

Vocal Point, Integral to compete ton

"In Provo there is tons of audience support," said Jay Howser, a student from Madera, Calif., majoring in broadcast journalism and member of Vocal Point. "A lot of LDS folks grew up singing and appreciate a cappella

as an art form." The competition will also give audiences a chance to expand their horizons, said Glen Sawyer, a member of Integral and student from Springfield,

Va., majoring in computer science. "They'll get the opportunity to see some other a cappella going on, not just BYU stuff," Sawyer said.

For both Howser and Sawyer, getting involved with a cappella was due largely to the support of the style on campus, where the A Cappella Club has been organized for several years.

Howser heard Vocal Point at Freshman Orientation and, with outside influences of The Nylons and

Steven

Rockapella, joined the group. Sawyer saw fliers for the A Cappella Club in 1993 and got involved.

"It's rare that a university can foster a club for a cappella," Howser said. A cappella music in Utah has long

been an appreciated form. "There is something powerful about the versatility of the human voice without instruments," said Kent Minson, a first-year graduate student in English and president of the A

Cappella Club. "The key to a cappella appeal is diversity of repertoire," Howser said. "You'll see that at the competition."

"A cappella can cross several genres of music," Minson said. "You name it and you can sing it a cappella."

The competition will be evaluated according to two categories: musicality, which involves notes, pitch, etc., and performance, which emphasizes originality. A good performance, according to the event's website, is

rated on the degree to vi ence was entertained, flashy costumes and tri-

# Volleyball: one team, many nations Gymnasts battle OSU

By ROMNEY M. STEWART Universe Sports Writer

For five members of BYU's men's volleyball team, Provo was not only a city far away from home, but also in an entirely different country.

Ossie Antonetti, Oliver Knechciak, Hector Lebron, Ingo Lindemann, and Shane Van Beest are all from foreign countries.

Ossie Antonetti and Hector Lebron are both from San Juan, Puerto Rico. Hector in part decided to come to BYU because Ossie was already in Provo, and his mother told Hector what a good experience Ossie was having. That was enough to convince Lebron to pack his bags and head west. In the United States, he found some new challenges.

"In Puerto Rico, it is a little bit more laid-back. Here, it is a lot more exhausting and you give a lot more of your time," said Lebron. "You really have to organize yourself and manage your time well to be able to accomplish everything for school and the team."

Both Lebron and Antonetti played on the Puerto Rico Junior National Team during the summer before returning to Provo for the beginning of the school year.

Neither players' families have seen them play while in a Cougar uniform, other than from watching videotapes sent home.

"I wish that they could see me play," said Antonetti, "but the fans are kind of like a family. They're very supportive."

Oliver Knechciak came to Utah County by way of Lausanne, Switzerland. He was playing on a club team in Switzerland when he sent some letters to different colleges and the response from BYU was a positive one. However, Knechciak found some differences in the way the game is played upon his arrival here.

"In Europe, more focus is on technique and skills. American volleyball is based on power and strength. I was a little behind that way when I came here," said Knechciak.

Camberra, Australia where he is a member of the Australian Olympic Volleyball Team that will be competing in the 2000 Olympics.

"At the international level, you can't afford a passing or defense

# in first meet of season

By DAVE HERSAM Universe Sports Writer

The BYU women's gymnastics team, ranked 17th in the preseason coaches' polly opens its season today against 14th ranked Oregon State in Corvallis, Ore. The team begins this season's run at the NCAA Super Six hampered by some early season

"It's just the nature of gymnastics," said head coach Brad Cattermole, who is in his tenth year at BYU. "It's not a question of whether or not gymnasts will get hurt, just when and how badly."

Everyone deals with injuries and generally ends up with the team they originally intended to have, Cattermole said.

BYU will take on the OSU Beavers without junior co-captain Erin Johnson who suffered a torn anterior cruciate ligament in floor practice last Thursday.

Fellow co-captain, senior Angela Andersen, did not perform in the team's intrasquad meet last Friday, and will undergo further tests to see if she can return this season.

Juniors Denice Pauga and Natalie Emig, expected to be all-arounders later in the season, will be limited by nagging injuries. They will compete in only two or three events against OSU.

The injuries have opened spots for some freshmen to get their first taste of college competition. Freshman Kim Little from Fremont, Calif., will be the only Cougar at the meet to compete in every event. Little was also the only all-around competitor in the team's intrasquad meet when she scored an impressive early season score of 37.375.

Cattermole thinks that this year's team has the depth to do well despite the injuries.

Returning to the squad are 11 of last vear's 12 letter-winners. The one gymnast lost to graduation was team captain and all-arounder Kelli Rose, who contributed on every event and was especially proficient on the beam, according to Cattermole.

"We can't replace Kelli on the beam," said Cattermole, "but I think that this year we're much, much stronger on the vault, stronger on the floor, and as strong on the bars."

Junior Natalie Emig, a home and family studies major from Tempe, Ariz., said the OSU meet will be exciting and give the young team some necessary experience with the pressure and scoring of away meets.

"We've had good practices this week and keep improving," she said. "If we can score well at these two away meets then we'll be more confident at Utah and very ready for our first home meet."

"You just don't get the same scores away that you do at home," Cattermole said. Though the judges do their best to be impartial, Cattermole said that they still often think of the home team as "their

team." "To win an away meet you need to

Expires 13 Feb 1998

win by a solid two points or so," he said. "If the visiting team is leading by a few tenths, you generally see the scores flip-flop and the home team win. It happens for everyone. You just have to understand that, not let it bother you, and do your best." The Beavers, like BYU, just missed

out on a trip to the NCAA championships last year. This year, they're breaking in a new head coach, but return four All-Americans. But as Cattermole said, there's nothing one team can do to defend against the other team's routine.

"Unless you find a way to legally tackle them as they perform," he said,"it doesn't do much good to watch what they do. We just have to focus on ourselves."

Another new Cougar who is looking to focus on what she can do and contribute now and in years to come is freshman Kelly Christensen. She will compete in three of the four events against OSU, and is excited about her first collegiate meet.

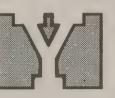

Cattermole isn't worrying too much about the score at this first meet. As he points out, BYU has generally started slowly and then had their best meets later when they matter most.

The Cougars' first home meet will be Saturday Feb. 14 when the team will go up against UC-Santa Barbara.

BYU's Eline Chiew, Holly Parkinson and Adrien Jenkins will compete in singles at the 1998 Rolex National Intercollegiate Indoor Tennis Championships in Dallas, Feb. 5-8.

Parkinson and Jenkins qualified by reaching the finals at the Rolex Central Region Championships last November. Chiew was an at-large selection.

In the Rolex Collegiate Tennis Rankings, Parkinson is currently tied for No. 11, Chiew is No. 18 and Jenkins is tied for No. 67.

Chiew and Jenkins will also be competing in doubles, where they are currently ranked No. 10 in the nation, after having won the title at the Rolex Central Region Championships.

Chiew, Parkinson and Jenkins will be competing in a 32-player singles field and 16-team doubles field. The tournament also features men's com-

case their talents after spending a great amount of time in the off-season working on their game.

"Last semester we did a lot of weightlifting, sprints and aerobics," Jenkins said. "We're more disciplined this year."

The Rolex Intercollegiates have helped to produce several tennis professionals. Two of the tournaments past champions — Todd Martin (Northwestern, 1990) and Malivai Washington (Michigan, 1989) faced each other in the semifinals of Wimbledon in 1996. Another past champion, Lisa Raymond (Florida, 1992), recently beat the world's No. 1

player, Martina Hingis. Jan. 30, the entire squad will travel to Salt Lake City to play the University of Utah. For Kim Kelly, she'll be returning to her old stomping grounds. Last year, Kelly played for the Utes before transferring to

# Defense name of game for Sunday's Super Bowl

Associated Press

SAN DIEGO — The biggest crowds at Super Bowl interview sessions have surrounded Brett Favre and John Elway, Terrell Davis and Dorsey Levens, Antonio Freeman and Shannon Sharpe.

The defensive players get attention, too, but nowhere near as much as the guys who do the scoring. Hey, even Reggie White wasn't engulfed by cameras, microphones and notebooks every single minute.

Perhaps the focus on offensive players is natural. The Broncos, after all, averaged 29.5 points a game in leading the league. The Packers scored 26.4 to top the NFC.

Yet when Favre, the NFL's threetime most valuable player, was asked what will make the difference Sunday. he didn't hesitate.

"Defense," the Packers quarterback said. "Pure and simple, whichever defense makes more stops. Defense does win championships.'

Defensive stats indicate a standoff. The Packers yielded 282 points, five fewer than the Broncos gave up. Denver ranked fifth in total defense (measured by yardage) and Green Bay was seventh. Both were stingier vs. the pass than against the run, and both have peaked in the playoffs.

The defending champion Packers had 32 takeaways, one more than Denver. They also have more big names with White, LeRoy Butler and Gilbert Brown, while the Broncos'

most renowned defender this year was Bill Romanowski — perhaps best known for spitting at an opponent and getting fined for dirty hits.

The Pack also seems to have the edge in coaching. Coordinator Fritz Shurmur has a knack for putting together game plans that perfectly fit the strengths of his players.

Greg Robinson, Denver's defensive coordinator, was criticized late in the season because the Broncos were giving up too much yardage and making mistakes late in tight games. But the Packers claim they aren't underestimating Denver's defense.

"We have a healthy respect for them," Packers coach Mike Holmgren said Thursday. "They stopped some pretty good offensive teams in the playoffs, and they have some veterans who have been in big games and some very fine young players.'

One of those veterans, Alfred Williams, thinks the defense has gotten more aggressive mostly because he's healthy and so is fellow end Neil

"I think it just helps the whole defensive line to take their play up to a whole new level by seeing us out there flying around and doing things that we can do," he said. "The stakes are higher and when the stakes are higher, you have to be at your best game. I think that pressure has been on us as a defense to play our best

jokingly called Shurmur entist" when asked about defensive game plans. All-Pro safety, said out in 15 coverages forning and the players ed to have mastered them by the afternoon practice.

"It might be a bit confusing now," he said before practice, "but by Sunday we'll be fine with it."

Butler believes the defense could turn the game around.

"Everyone is going into the game feeling everybody on his side can beat everybody on the other side," he said. "We all know forcing turnovers will be very important, but this offense does not turn over the ball a lot. So we have to take it away from them.

"We know our focus is being aggressive and to change the complexion of the game early.'

Of course, that philosophy can lead to gambling, which, in turn, can lead to getting burned.

"If you take too many risks, you can bury yourself," Denver safety Steve Atwater said. "I'm sure we'll blitz some, but we probably won't do it excessively, because we've seen what Favre can do as soon as he sees that."

RTS AT PRICES LESS THAN nervice - delivered to you at no enstall, paint & repair. CARMAN Microsoft's explorer less accessible Associated Press WASHINGTON — Microsoft Corp., avoiding contempt of court,

version of its Windows 95 operating system without requiring easy access to its Internet Explorer software. The offer by Microsoft was accepted by the Justice Department and U.S. District Judge Thomas Penfield

agreed Thursday to offer the latest

Jackson. It settled a part of a larger antitrust suit accusing Microsoft of violating a Dec. 11 court order. That order requires the company not to force computer makers to install Internet Explorer software as a condition of

Microsoft attorney Richard J. Urowsky said Thursday's agreement leaves other issues in the larger case unresolved, including Microsoft's

licensing the Windows 95 operating

claim that it has the right to integrate its Internet software with its Windows 95 operating system. An April 21 hearing has been set on the company's appeal of Jackson's order to separate the two programs.

"Microsoft will continue to defend the software industry's right to update and enhance products without unnecessary government interference," said William H. Neukom, Microsoft senior

Corp. announced Thursday it would give away its Netscape Navigator browser in an effort to add millions of new users.

Microsoft agreed Thursday to let computer makers install Windows 95 but delete the Internet Explorer icons — the graphical pictures that launch a program with a click of a computer mouse — from the computer's desktop or opening screen.

That procedure leaves the bulk of Joel Klein, assistant attorney general the Internet Explorer program on the computer, but not visible to the average computer user. Internet Explorer files are integrated with Windows 95 to allow other programs, such as Intuit's Quicken personal financial software, to access the Internet,

Microsoft has said. Computer makers will be able to delete the Internet Explorer files via vice president. the "Add/Delete" program that comes with Windows 95. The heart of the government contempt argument was that Microsoft didn't offer computer makers an easy option to remove Internet Explorer using the "Add/Delete" function.

> Computer makers have a second option, which also removes all of the Internet Explorer icons but leaves the bulk of the program stored on a computer's hard drive.

Thursday's settlement was hailed by

in charge of Justice's civil rights division.

"Microsoft has agreed to immediately make available the most up-to-date, fully functional version of Windows 95 without forcing computer manufacturers to take its browser as well," he said. "This will increase consumer choice and will also send precisely the right message to the market."

The Justice Department said the settlement provides "an opportunity for meaningful competition among browser companies for pre-installation of their software on new personal computers."

Justice sued Microsoft in October, claiming it violated a 1995 court order aimed at preventing it from using its dominance in Windows to muscle into the Internet-browser market. Browsers enable people to view and download information from the

The department said Microsoft flouted the judge's order by offering computer makers either an older version of Windows or a commercially

worthless option that wouldn't run. Microsoft insisted it had complied with the judge's order. It said it was technically impossible to remove Internet Explorer files without ruining Windows 95, since the two programs are highly integrated.

Netscape, which has lost market share to Microsoft's free browser, said it will let computer makers, Internet service providers and other companies distribute Netscape Navigator without restriction.

The company also said it will encourage computer users to download Navigator from the Internet, free of charge, as well as Communicator, a package of business programs that includes the browser.

# Give vaccination after 1st birthday

### Associated Press

OGDEN — Here's a case where the early bird doesn't get the worm but an

unwelcome encore with the needle. Specifically, children whose physicians give them the measles-mumpsrubella vaccine before their first birthdays must get another shot after they turn 1. Otherwise, state health officials will not recognize the vaccination as valid.

even a day.

when it is time to enter kindergarten, as a number of parents — and understandably irritated tykes — learn every year.

Rick Crankshaw, of the State Health Department's immunization program, insists the rule isn't arbitrary.

"For every day that it is given prior

It doesn't matter if junior got his to the first birthday, there can be less shot one week before turning 1, or of an immune response," he said. "There probably isn't any real differ-Early vaccinations do not count ence between one day before and the first birthday, but the problem is we need to have a standard cutoff date."

> If they make an exception for the child whose vaccine was given a day early, parents of children who were vaccinated three days or a week early would complain, Crankshaw said.

### Dr. Larry C. Porter

BYU Professor of Church History

"Brigham Young: 'The Man for the Hour Will Be Ready Whenever the Hour Strikes'"

Dr. Larry C. Porter earned his BA degree in history from Utah State University and MA and PhD degrees from BYU in the history of religion (specifically, LDS Church history). After serving for 11 years as a Church seminaries and institutes instructor, principal, and district coordinator, he joined BYU's faculty in 1970. Professor Porter has served as chair of the Department of Church History and Doctrine for seven years and as director of the Church history area of the Religious Studies Center, also for seven years.

He has been a co-editor for Truth Will Prevail, a history of the Saints in the British Isles. He has also co-edited The Prophet Joseph: Essays on the Life and Mission of Joseph Smith and Lion of the Lord: Essays on the Life and Service of Brigham Young. He served on the editorial board of the Encyclopedia of Mormonism and is currently an associate editor of BYU Studies. Dr. Porter has been a contributing writer in a variety of books and authored numerous articles for the Ensign, New Era, Church News, BYU Studies, Regional Studies in Church History, and New York History.

Professor Porter has traveled extensively in connection with his research, and he lived for a year at the Martin Harris Farm in Palmyra, New York. He has researched early Church history during successive summers in New England, New York, Pennsylvania, Ohio, Missouri, California, Canada, and Great Britain.

Brother Porter has been a bishop and has served on the Provo Utah North Stake high council. He was a member of the Church's Correlation Review Committee for 11 years, serving as its chair for part of that time.

In his address, Professor Porter will concentrate on the historical aspects of Brigham Young, which he has researched extensively, leaving the doctrinal components of President Young's ministry to the personal study of the forum audience. Professor Porter states, "I believe that knowing something of how the man was made might prove insightful. Together we will investigate significant historical components associated with his birth, conversion, and ministry during this rare era in the growth and development of God's earthly kingdom."

A question-and-answer session will be held at 12 noon in the Marriott Center Cougar Room.

Kill the IRS was the general consensus of those who attended a town meeting Thursday at Timpview High School with Congressman Chris Cannon.

and reforming the tax code.

Cannon also told residents he is that would dissolve the IRS by the year 2000.

Residents cited their concerns about the complexities of the tax code and the corruption of the IRS.

Richard Mack, who is planning to run for sheriff, said he believes the IRS is a criminal organization.

"We cannot accept criminality," Mack told Cannon. Floyd Holdman told Cannon about

his own nightmare with the IRS. Holdman said his property was

He said it is not matter of if the IRS should be dissolved but when. "We are kicking a dead horse that is

already dead." Many of those attending said they want the functions of IRS brought

more to the local level because it is easier to fight back. Cannon said more people need to

get involved to instigate change. He encouraged everyone present to write to Congress and to stay abreast of the issues.

Cannon said when he goes back to Congress, he will take the knowledge that a lot of people are angry with the current tax system and they (Congress) are going to have to

### Salt Palace may expand with \$39 million

By JARED G. JONES Universe Staff Writer and the Associated Press

County leaders, just two years after launching an \$85 million renovation of the Salt Palace Convention Center, are endorsing yet another expansion of the downtown complex in downtown Salt Lake City.

This time, with a price tag of \$39 million, the new Salt Palace will double exhibition space, enlarge the ballroom and create an underground parking garage.

County Commissioner Brent Overson said the funding for the project depends on the state legislature's passage of a bill for a 4 percent increase in the rental car tax.

A bill is being drafted that would, raise the county-option portion of the rental tax from 3 cents to 7 cents on the dollar.

Overson said the chances the legislature will pass the bill are very good because it does not mean an additional tax for all of Utah. Only those renting cars will pay the tax.

Even under the new formula, the tax increase will generate about \$3 million a year for Salt Lake County nearly double the current amount, Overson said.

"That would cover the expansion," he said. "We wouldn't do it otherwise."

If the bill passes, construction could begin as early as March 1999 and finish in August 2000.

The new expansion work has the support of the Salt Lake Convention and Visitors Bureau.

John Daich, representative of the Salt Lake City Convention and Visitors Bureau, said a variety of circumstances prompted the request for the expansion. He said the expansion will increase the city's ability to attract larger sized events.

The 2002 Olympics also influenced the decision to expand the Salt Palace. "We already have a contract with the Olympics, and they requested more space," Overson said.

Salt Lake County's proposal will give the Salt Palace nearly 400,000 square feet — compared with the existing 256,000 — in which to stage conventions and trade shows.
